- **Power Supply:** 110-240V, 50/60Hz
- **Water Tank Capacity:** 1.8 liters
- **Built-in Grinder:** Yes
- **Dimensions:** 14 x 10 x 12 inches
- **Weight:** 8 lbs

Setup Instructions

Unpacking

1. Carefully remove the coffee maker from the box.
2. Check all accessories: grinder, carafe, filter basket.
3. Read all safety instructions before proceeding.

Initial Setup

1. Place the coffee maker on a flat, stable surface.
2. Fill the water tank to the desired level.
3. Insert the filter basket securely.
4. Plug the coffee maker into a grounded outlet.

Operating Instructions

Brewing Coffee

1. Add coffee beans to the grinder compartment.
2. Select the grind size using the control knob.
3. Set the programmable timer if delayed brewing is desired.
4. Press the 'Brew' button to start the coffee maker.

Cold Brew Feature

1. Add coarsely ground coffee and water as directed.
2. Select the 'Cold Brew' option on the menu.
3. Set the brew time using the control panel.
4. Wait for the brewing cycle to complete.

Maintenance and Cleaning

- Clean the carafe and filter basket after each use.
- Descale the coffee maker every three months using a water-vinegar solution.
- Wipe down the exterior with a damp cloth.
- Do not immerse the coffee maker in water.

Troubleshooting

Common Issues

- **Unit doesn't turn on:** Check the power connection and ensure the outlet is functioning.
- **Brewing is slow:** Clean the filter basket and descale the machine.
- **Grinder malfunction:** Ensure the lid is securely closed and beans are not jammed.

Warranty and Customer Support

- **Warranty Duration:** 2 years
- For support, contact us at support@brewmaster.com or call 1-800-555-COFFEE.
- Visit our website for FAQs and support articles.

Safety Information

- Always unplug the machine when not in use.
- Ensure all parts are correctly assembled before operating.
- Use only the specified power voltage.

By following this guide, you will enjoy the full potential of your BrewMaster X200. Happy Brewing!
