

Product Overview

The **BrownBox ErgoPro Max** is an ergonomic office chair designed to enhance productivity and comfort during long working hours. This high-end office chair features advanced lumbar support, adaptive armrests, and a flexible tilt mechanism, making it ideal for all-day use.

Features and Benefits

- **Advanced Lumbar Support:** Tailored to support your spine effectively, reducing strain.
- **Adaptive Armrests:** Adjust up and down or angle in and out to support your arms naturally.
- **Flexible Tilt Mechanism:** Allows personalized recline for relaxation between tasks.
- **Memory Foam Seating:** Premium memory foam adds an extra layer of comfort, adapting to your body.
- **Breathable Mesh Back:** Keeps you cool and dry with optimal airflow.

Assembly Instructions

1. **Unbox Carefully:** Ensure that all components are present—backrest, seat, armrests, base, wheels.
2. **Attach Wheels to Base:** Snap each wheel into the base corners until secure.
3. **Fix the Gas Lift Cylinder:** Insert it firmly into the base center.
4. **Mount the Seat:** Use included screws and tools to attach the seat to the base via the gas lift.
5. **Install the Backrest:** Align it with the seat and secure using the bolts provided.
6. **Adjust the Armrests:** Secure them in their respective slots on either side of the seat.

Usage Instructions

- **Adjust Lumbar Support:** Rotate the knob on the chair's side to move the support up or down.
- **Modify Armrest Height:** Push the button beneath each armrest to adjust the height.
- **Recline and Lock Tilt:** Use the lever to tilt the chair and find your preferred angle. Lock by pushing the lever back in.

Maintenance and Care

- **Regular Cleaning:** Use a damp cloth and mild detergent for the mesh and a vacuum for the foam.
- **Check Bolts and Screws:** Tighten any loose screws every six months for stability.

Troubleshooting Guide

- **Missing Parts:** Contact customer support with your order number to expedite parts delivery.
- **Recline Issues:** Ensure the lever is engaged and check the tension knob for adjustment.
