Common Issues and Troubleshooting

Issue: Blowing Warm Air

- **Solution:** Ensure the mode is set to 'cool' and that the temperature is set correctly. Check if the air filter is clean and appropriately installed. If issues persist, contact professional service.

Issue: Unit Does Not Turn On

- **Solution:** Check power connection and ensure the outlet is functional. Verify that the remote has working batteries.

Issue: App Crashes

- **Solution:** Update your phone software and clear the app cache. Reinstall the app if necessary.

Maintenance

- **Regular Cleaning:** Clean the air filters monthly to maintain optimal performance and air quality.
- **Seasonal Maintenance:** Schedule professional servicing every six months.

Warranty

The CoolWave 3500 comes with a one-year warranty covering parts and labor for manufacturing defects. Ensure you have proof of purchase for any claims.
