

EcoTherm Smart Thermostat ST2000

Product Overview

The EcoTherm Smart Thermostat ST2000 is designed to provide seamless temperature control for your home, optimizing energy efficiency and enhancing comfort. Compatible with Amazon Alexa, it empowers you with voice commands for easy adjustments. With its user-friendly mobile app, you can control your home's climate remotely, ensuring comfort from anywhere.

Specifications

- **Model:** ST2000
- **Dimensions:** 4.5 x 4.5 x 1 inch
- **Connectivity:** Wi-Fi 802.11 b/g/n (2.4GHz)
- **Power Requirements:** 24V AC
- **Compatibility:** Amazon Alexa, iOS and Android devices

Setup Instructions

Installation

1. **Tools Needed:** Screwdriver, drill (if required).
2. **Power Off:** Turn off power to your HVAC system before installation.
3. **Mounting:** Remove the old thermostat and mount the ST2000 bracket. Use the included screws.
4. **Wiring:** Connect wires according to the labels (e.g., R to R, W to W). Ensure all connections are secure.
5. **Attach Thermostat:** Snap the thermostat onto the mounting plate.

Wi-Fi Setup

1. **Turn On Thermostat:** Power on your HVAC system.

2. **Download App:** Get the EcoTherm app from the App Store or Google Play.
3. **Create Account:** Sign up or log in to the EcoTherm app.
4. **Connect to Wi-Fi:**
5. Open the app and select 'Add Device'.
6. Follow on-screen instructions to connect the thermostat to your 2.4GHz Wi-Fi network.

Using the Thermostat

- **Manual Control:** Use the touch interface to adjust temperature and settings.
- **App Control:**
 - Open the app to view current status, adjust temperatures, or set schedules.
- **Voice Control with Alexa:**
 - Link your thermostat to Alexa via the app.
 - Use commands like 'Alexa, set the thermostat to 72 degrees.'

Troubleshooting

Common Issues

- **Wi-Fi Connectivity Problems:**
 - Ensure your Wi-Fi is 2.4GHz.
 - Retry connecting through the app.
 - Reset the network settings: Go to 'Settings' > 'Network' > 'Reset'.
- **Thermostat Not Responding:**
 - Perform a soft reset by holding the main button for 10 seconds.
 - Ensure HVAC system power is on.
- **Voice Command Issues:**
 - Re-link the thermostat in the Alexa app if voice commands fail.

Maintenance and Care

- **Regular Cleaning:** Wipe the screen with a soft, dry cloth to maintain touch sensitivity.
- **Firmware Updates:** Always update to the latest firmware through the app to ensure the best performance.

Warranty and Support

- **Warranty:** 2-year limited warranty.
- **Support Contact:** Call 1-800-555-0199 or visit our support website for assistance.

The EcoTherm ST2000 is designed to make your home smarter and more comfortable. Should any issues arise, our customer service team is ready to assist you, ensuring you have the support needed for a seamless user experience.
