

FitSphere User Guide

Introduction

Welcome to FitSphere, your comprehensive fitness companion designed to help you achieve your health and wellness goals. Whether you're looking to track your physical activities, access workout videos, or monitor your progress, FitSphere provides the tools you need to succeed.

Features Overview

- **Personalized Workouts:** Choose from a wide variety of workout videos tailored to your fitness level.
 - **Step Tracking:** Accurately monitor your daily steps and activity.
 - **Progress Monitoring:** Visualize your progress with charts and graphs.
 - **Community Support:** Engage with a community of fitness enthusiasts.
-

Installation and Setup

System Requirements

- **iOS:** Version 12.0 or later.
- **Android:** Version 8.0 or later.

Installation Steps

1. Navigate to the App Store or Google Play Store.
2. Search for FitSphere.
3. Tap 'Install' to download and install the app.

4. Open FitSphere.
5. Register or log in using your email address.

Initial Setup

1. Upon first login, input your personal details (height, weight, fitness goals).
 2. Customize your workout preferences.
 3. Enable permissions for motion tracking (Settings > Privacy > Motion).
-

Using FitSphere

Accessing Workout Videos

1. Tap on the 'Workouts' tab located at the bottom of the app.
2. Browse or search for specific workout categories (e.g., Cardio, Strength, Yoga).
3. Select a video and tap 'Play'.
4. Follow along with the on-screen instructions.

Step Tracking

1. FitSphere uses your device's motion sensors to track steps.
2. Ensure tracking is enabled: Settings > Privacy > FitSphere > Enable.
3. View your step count on the home dashboard.

Monitoring Progress

1. Tap the 'Progress' tab.
 2. View charts summarizing your activities, calories burned, and more.
 3. Export data for personal records or sharing.
-

Troubleshooting Guide

App Crashes on Startup

- **Update:** Ensure the app is updated to the latest version.
- **Clear Cache:**
- **Android:** Settings > Apps > FitSphere > Storage > Clear Cache.
- **iOS:** Uninstall and reinstall.
- **Restart Device:** Power off and restart your phone.

Inaccurate Step Count

- **Check Permissions:** Ensure motion & fitness tracking is enabled.
- **Calibrate Device Sensors:** Follow device-specific calibration steps.

Problem with Video Playback

- **Network Connection:** Check Wi-Fi or mobile data connection.
 - **App Update:** Ensure the app is updated.
-

FAQ

How do I update my email address? - Navigate to 'Settings' > 'Account' > 'Email' and input the new address. - Confirm the change with the verification email sent to your new address.

How to reset my password? - At the login screen, tap 'Forgot Password'. Enter your email to receive reset instructions.

Customer Support

- **Contact Us:** Reach out via the 'Help' section in-app or email support@fitsphere.com.

- **Community Forums:** Engage with other users in our community forums.

Thank you for choosing FitSphere. Your journey to fitness starts here!
