

LumiGlow Smart Lamp: Product Documentation

Product Overview

The LumiGlow Smart Lamp combines modern design with intelligent technology, offering seamless integration into your smart home. With a sleek metal finish and adjustable LED technology, it is perfect for any home or office setting.

Key Features:

- **Smart Control:** Compatible with voice assistants (Google Assistant, Amazon Alexa).
- **Customizable Lighting:** Adjustable color temperature and brightness.
- **Energy Efficient:** Consumes only 10 watts while providing light equivalent to a 60-watt incandescent bulb.
- **Mobile App:** Control settings from your smartphone.

Installation Guide

1. **Unpacking:** Carefully remove the lamp from the packaging, ensuring not to damage the components.
2. **Assembly:** Attach the base to the stem using the provided screws.
3. **Connectivity Setup:**
 4. Download the LumiGlow App from App Store or Google Play.
 5. Follow the on-screen instructions to pair your lamp with the app.
 6. Connect to your Wi-Fi network (2.4GHz recommended).
7. **Final Positioning:** Place your lamp on a stable surface.

Usage Instructions

- **Manual Operation:**

- Use the touch-sensitive panel to turn the lamp on/off, adjust brightness, and change colors.
- **Smart Operation:**
- Open the LumiGlow app for full control.
- Use voice commands through Google Assistant or Alexa to adjust lighting remotely.

Maintenance and Care

- **Cleaning:** Use a soft, damp cloth to wipe the lamp. Avoid harsh chemicals.
- **Bulb Replacement:** Use LumiGlow certified bulbs for best performance.
- **Software Updates:** Keep the app up to date for new features and security enhancements.

Troubleshooting

- **Connectivity Issues:**
- Ensure the lamp is within range of your Wi-Fi router.
- Restart the lamp and your phone's Wi-Fi.
- **App Malfunctions:**
- Ensure the app is updated to the latest version.
- Clear the app cache or reinstall if necessary.
