Technical Specifications

- **Display:** 1.3-inch AMOLED, 360x360 resolution
- **Processor:** Dual-core 1.2 GHz
- **Connectivity:** Bluetooth 5.0, Wi-Fi
- **Battery:** 400mAh
- **Water Resistance:** IP68

Getting Started

Downloading the App

1. Visit the App Store or Google Play Store.
2. Search for "PulseSync" and download the app.

Pairing Your Device

1. Enable Bluetooth on your smartphone.
2. Open the PulseSync app.
3. Follow on-screen instructions to pair the V300.

Daily Use

- **Navigating the Interface:** Swipe left or right to access different features. Press the home button to return to the main screen.
- **Fitness Features:** Access fitness tracking by swiping to the activity tab.

Maintenance and Care

- Clean your watch with a soft cloth regularly.
- Keep the software updated through the PulseSync app.

Troubleshooting

- **Watch Not Powering On:** Ensure the watch is charged. If unresponsive, hold the power button for 15 seconds.
- **Sync Issues:** Make sure Bluetooth is enabled and the app is up to date.

Warranty and Support

Your PulseSync V300 comes with a one-year warranty. For support, visit our website or contact our customer service team.

Safety and Compliance

Complies with all international health standards. Follow proper usage guidelines to ensure safety.

Thank you for choosing PulseSync V300. We hope you enjoy your new smartwatch!
