

PureBreath 600 User Manual

Product Overview

The PureBreath 600 is an advanced air purification system designed to improve air quality in rooms up to 600 square feet. Equipped with a multi-stage filtration system, this device efficiently captures allergens, dust, and pollutants, while reducing odors, providing a healthier and fresher indoor environment.

Features

- **HEPA Filter:** Captures 99.97% of particles as small as 0.3 microns.
- **Activated Carbon Filter:** Reduces household odors from pets, smoke, and cooking.
- **Smart Home Compatibility:** Seamlessly integrates with Alexa and Google Home for voice control.
- **Quiet Operation:** Operates at a noise level of less than 25 decibels in Sleep Mode.
- **Air Quality Sensor:** Automatically adjusts to changes in air quality.
- **Child Lock Feature:** Prevents accidental changes to settings, ensuring safety.

Specifications

- **Coverage:** Up to 600 sq ft
- **Dimensions:** 15" x 10" x 20"
- **Weight:** 12 lbs
- **Power Supply:** AC 120V, 60Hz
- **Warranty:** 2 years

Setup Instructions

1. **Unpack the Device:** Remove the air purifier from its packaging and discard any protective coverings.

2. **Installation of Filters:** Open the rear panel and remove the plastic wrap from the filters before reinserting them.
3. **Select Position:** Place the device at least 3 feet from any walls for optimal air flow.
4. **Power On:** Plug the power cord into a suitable outlet and press the power button.
5. **Connect to Smart Home Systems:** Use the PureControl app to sync the device with your smart home system.

Operating Instructions

- **Adjusting Fan Speed:** Use the touch-sensitive control panel to select Low, Medium, High, or Automatic modes.
- **Timer Setting:** Set a timer for the device to run between 1 to 12 hours.

Maintenance Guide

- **HEPA and Carbon Filter Replacement:** Replace every 6 to 12 months. The filter replacement indicator will alert you.
- **Cleaning:** Wipe the exterior with a soft cloth. Avoid using harsh chemicals.

Troubleshooting

- **Device Not Turning On:** Ensure the power cord is securely connected and the outlet is functional.
- **Poor Airflow:** Check if the filters are correctly installed and not blocked.
- **Connectivity Issues:** Reset the device by unplugging for 2 minutes and reattempt pairing.

Safety Information

- Keep the device away from water and humid areas.
- Do not block the air intake and outlets.

Warranty and Support
