

SecureCloud User Guide

Overview

SecureCloud is a robust cloud storage solution designed to securely store, manage, and share your files. Our platform prioritizes user-friendly navigation and state-of-the-art security, providing a seamless experience for individuals and businesses alike.

Getting Started

1. **Sign Up/Log In:**

2. Visit our website and click on 'Sign Up'.
3. Fill in your personal details including email and create a password.
4. Verify your email via the link sent to your inbox.

5. **Navigation Basics:**

6. Once logged in, you will be greeted by the dashboard displaying your storage summary.
7. Key tabs include 'My Files', 'Shared with Me', 'Recent', and 'Trash'.

Account Management

• **Update Profile Information:**

- Navigate to 'Settings' > 'Account Information'.
- Make changes to your name, email, or password. Remember to save your changes.

• **Password Recovery:**

- Click 'Forgot Password?' on the login page.
- Enter your registered email to receive a reset link, and follow the instructions provided.

Using SecureCloud

- **Uploading Files:**

- Go to 'My Files' and click 'Upload'.
- Select from your device the files you wish to upload.

- **Sharing Files:**

- Right-click on any file to bring up options, select 'Share'.
- Enter the email of the recipient or generate a shareable link.

Storage Management

- **Monitor Usage:**

- Dashboard provides a visual summary of storage usage.
- Click 'Storage Management' to view detailed analytics.

- **Purchasing Additional Space:**

- Navigate to 'Storage Management' > 'Upgrade'.
- Select a desired plan and proceed through the payment gateway.

Billing and Subscription

- **Understanding Plans:**

- SecureCloud offers Basic, Premium, and Business plans. Each plan includes tiered features suited for different needs.

- **Handling Charges:**

- For unexpected charges, check 'Billing History' in your account settings.
- Contact support for discrepancies or unauthorized charges.

Troubleshooting

- **Forgot Password Issues:**

- Ensure you use the registered email. Double-check your spam folder for reset emails.
- **Unexpected Charges:**
- Verify if an auto-upgrade was enabled. Contact support for further assistance.
- **Upload Failures:**
- Check your internet connection and file size limits for your plan.

FAQs

- **Q: How do I recover a deleted file?**
- A: Navigate to 'Trash', select the file, and click 'Restore'.
- **Q: Can I downgrade my plan?**
- A: Yes, go to 'Subscription Settings' and select 'Change Plan'.
- **Q: What security measures are in place?**
- A: SecureCloud uses encryption and two-factor authentication to safeguard your data.

This documentation aims to enhance your experience with SecureCloud, ensuring you can effortlessly manage your cloud storage needs. For further assistance, our support team is available 24/7 to answer any additional inquiries.
