Installation Guide

Tools Required

- Wi-Fi enabled device (smartphone/tablet)

Steps to Install

1. **Connect Bulb:** Screw the SmartLux A50 into a compatible socket.
2. **Activate Setup Mode:** Turn the bulb on and off three times rapidly to enter pairing mode.
3. **Connect to Wi-Fi:**
4. Ensure your device is connected to a 2.4 GHz network.
5. Open the SmartLux app and follow on-screen instructions.
6. **Complete Setup:** Name and configure the bulb as desired.

App Integration

Step-by-Step Connection

1. **Download and Install the App:** Available on the App Store and Google Play.
2. **Create or Log into Your Account.**
3. **Pair Device:**
4. Ensure Bluetooth is enabled.
5. Follow prompts to connect.
6. **Customize Settings:** Set schedules, adjust brightness, and use presets.

Troubleshooting Guide

Wi-Fi Connection Issues

- **Check Network:** Ensure you are using a 2.4 GHz connection.
- **Router Proximity:** Position the bulb near your router during setup.
- **App Update:** Confirm the app is the latest version.

Lighting Malfunctions

- **Reset Bulb:** Toggle on/off 3 times for a factory reset.

Error Messages

- 'Unable to connect to network': Restart router, reset bulb, and retry setup.

Maintenance Tips

- Keep bulbs dust-free to maintain brightness.
- Avoid excessive on/off cycling to extend life.

FAQs

1. **Can I control the bulb remotely?** Yes, via the SmartLux app.
2. **Is the bulb dimmable?** Yes, through app and voice commands.
3. **How do I enable voice control?** Ensure integration with Alexa or Google Assistant in the app settings.
4. **What happens if my Wi-Fi changes?** Re-initiate setup in the app under new network conditions.
