

Introduction

The SoundWave Pro 360 is a cutting-edge smart speaker designed to blend seamlessly into your daily life. With support for both 2.4GHz and 5GHz Wi-Fi bands, this speaker ensures robust connectivity and high-quality audio streaming. Its powerful, 360-degree sound output transforms any room into a concert hall.

Product Specifications

- **Model:** SoundWave Pro 360
- **Wi-Fi Compatibility:** 2.4GHz and 5GHz
- **Bluetooth Version:** 5.0
- **Voice Assistant:** Compatible with Alexa and Google Assistant
- **App Compatibility:** SoundWave Mobile App (iOS and Android)

Unboxing and Initial Setup

1. **Unbox the Device:** Carefully remove the speaker, power adapter, and user manual.
2. **Position the Speaker:** Place the SoundWave Pro 360 in a central location for optimal sound distribution.
3. **Power On:** Connect to a power source using the included adapter and press the power button.

Connecting to Wi-Fi

1. **Download the App:** Install the SoundWave Mobile App from the App Store or Google Play.
2. **Open the App:** Ensure your smartphone is connected to the Wi-Fi network you wish to use.
3. **Add Device:** In the app, tap on 'Add Device' and follow on-screen prompts.
4. **Select Network:** Choose your Wi-Fi and enter the password when prompted.
5. **Confirmation:** The speaker will indicate a successful connection with a chime.

Using Bluetooth

1. **Enable Pairing Mode:** Press the Bluetooth button until the light flashes.
2. **On Your Phone:** Navigate to Bluetooth settings and select 'SoundWave Pro 360' from the list.
3. **Pairing Confirmation:** You'll hear a tone indicating successful pairing.

Firmware Updates

1. **Check for Updates:** Within the SoundWave app, navigate to the settings and select 'Firmware Update'.
2. **Install Updates:** If an update is available, follow the prompts to install it.
3. **Reboot Device:** The speaker will restart automatically after the update.

Troubleshooting

- **Wi-Fi Connectivity Issues:**
 - Ensure the speaker is within range of the router.
 - Re-enter Wi-Fi credentials if necessary.
 - Restart both the speaker and router.
- **Bluetooth Pairing Problems:**
 - Remove the speaker from your phone's Bluetooth list and re-pair.
 - Ensure no other devices are interfering.
- **Firmware Not Updating:**
 - Check your internet connection.
 - Restart the app and attempt the update again.

Common Issues

- **Speaker Not Responding to Voice Commands:**

- Ensure the microphone is not muted.
- Verify voice assistant setup in the app.
