

Summit Shield 360 Tent Documentation

Welcome to the Summit Shield 360 Tent

The Summit Shield 360 Tent is designed for outdoor enthusiasts seeking durability, comfort, and reliability. Ideal for three-season camping, the tent offers ample protection against the elements and easy setup for both beginners and experienced campers.

Key Features:

- Accommodates up to three adults
 - Waterproof polyester fabric with a 2000mm rating
 - Lightweight aluminum poles
 - Ventilation windows with insect screens
 - Internal storage pockets and gear loft
 - Easy-to-use color-coded setup system
-

Specifications

- **Capacity:** 3 persons
 - **Weight:** 5.8 pounds
 - **Dimensions:** 8' (L) x 6' (W) x 4.5' (H)
 - **Material:** 100% Polyester with waterproof coating
 - **Season:** Suitable for Spring, Summer, and Fall
 - **Color:** Forest Green
-

Setup Instructions

1. **Select a Campsite:** Choose a flat, dry area to pitch your tent, clear of debris.
2. **Unpack Components:** Layout the tent body, rainfly, poles, and stakes.
3. **Assemble Poles:** Connect the color-coded poles to match corresponding sleeves on the tent.

4. **Raise Tent:** Insert the assembled poles into the tent sleeves and secure the tent body by attaching the tent clips.
 5. **Secure Stakes:** Hammer stakes into the ground at a 45-degree angle.
 6. **Attach Rainfly:** Drape the rainfly over the tent and secure using the provided clips.
 7. **Final Adjustments:** Adjust the guy lines for optimal tension and shape.
-

Usage Guidelines

- **Ventilation:** Ensure windows are partially open in warm weather to reduce condensation.
 - **Weather Consideration:** Not recommended for winter camping or heavy snow conditions.
 - **Internal Organization:** Utilize internal pockets to keep essentials within reach.
-

Maintenance and Care

- **Cleaning:** Use mild soap and water to clean the fabric; avoid abrasive materials.
 - **Waterproofing:** Apply waterproof sealant on seams and fabric joints each season.
 - **Storage:** Dry the tent completely before storage to prevent mold growth.
-

Troubleshooting

- **Registration Issues:** For warranty registration difficulties, contact customer support with a proof of purchase.
 - **Pole Breakage:** Replacement poles can be ordered directly from our website, follow the instructions in the tent manual for repairs.
 - **Leak Problems:** If the tent develops leaks, reapply the sealant and patch with the repair kit provided.
-

Warranty and Support

- **Warranty Registration:** Visit our website to register your Summit Shield 360 Tent using the provided serial number.
- **Customer Support:** Reach out to our hotline for assistance with product issues or part replacements.

We hope your adventures with the Summit Shield 360 Tent are exciting and comfortable. Our support team is here to ensure your experience is exceptional. Happy camping!
