

SummitShield Thermal Jacket

Documentation

Product Overview

The SummitShield Thermal Jacket is designed for outdoor enthusiasts and urban explorers who value warmth, comfort, and style in chilly climates. Constructed to withstand temperatures as low as -15°C, this jacket provides optimal insulation without compromising on breathability. Ideal for winter expeditions, snow sports, or everyday use, the SummitShield is your reliable companion in cold weather.

Design and Materials

The SummitShield Thermal Jacket boasts a tri-layer construction: - **Outer Shell:** Made from a durable water-resistant polyester that protects against wind and light precipitation. - **Mid-Layer:** A flexible blend of polyester and spandex allows for mobility while trapping heat efficiently. - **Inner Lining:** Soft fleece lining for added warmth and comfort, designed to wick away moisture.

Unique features include a detachable hood, adjustable cuffs, and zippered vents for temperature regulation. The jacket also includes multiple pockets for convenience, including an interior zip pocket for secure storage of essentials.
