

TurboVac 3000 User Guide

Product Overview

The TurboVac 3000 is designed for modern households that seek power, efficiency, and versatility. With advanced suction technology and a lightweight design, this vacuum offers superior performance on both carpets and hard flooring. Ideal for pet owners, the TurboVac 3000 captures allergens and pet hair with ease.

Key Features

- **Powerful Suction:** Enhanced motors provide up to 1500W of suction power.
- **HEPA Filtration:** Equipped with a HEPA filter capturing 99.97% of dust particles.
- **Large Dustbin:** 2.5L capacity reduces the frequency of emptying.
- **Multi-Surface Capability:** Optimized for carpets, tiles, and hardwood floors.
- **Attachments:** Includes tools for pet hair, crevices, and a telescopic wand.
- **Energy Efficient:** Rated Grade A for energy consumption.

Setup and Usage Instructions

1. Assembling the Vacuum:

2. Unbox all components.
3. Attach the handle to the base unit.
4. Secure the dustbin by aligning and clicking it into place.
5. Connect the power cord.

6. Operating the Vacuum:

7. Plug into a standard household outlet.
8. Slide the power switch to 'ON'.

9. Adjust suction mode for different surfaces using the control dial on the handle.

10. **Using Attachments:**

11. Select the needed tool and attach it to the nozzle or wand.

12. For pet hair, use the specially designed brush tool.

Maintenance and Care

- **Cleaning the Dustbin:**

- Release the latch and remove the dustbin.
- Empty debris into a waste bin.
- Rinse with warm water and let dry completely.

- **Filter Care:**

- Remove and clean the filter every three months.
- Examine for heavy clogging and replace annually.

Troubleshooting Guide

- **Vacuum Won't Turn On:**

- Ensure the power cord is plugged securely.
- Check the power outlet for electricity.
- Reset the vacuum by pressing the reset button on the side.

- **Loss of Suction:**

- Check for blockages in the hose and attachments.
- Clear or replace filters if necessary.

- **Overheating:**

- Allow vacuum to cool down.
- Ensure vents are clear.

Warranty and Customer Support

The TurboVac 3000 comes with a 2-year limited warranty covering defects in materials and workmanship. For warranty claims, contact BrownBox Customer Support at 1-800-555-0199 or support@brownbox.com.

Frequently Asked Questions (FAQs)

- **Is the TurboVac 3000 suitable for hardwood floors?** Yes, it is equipped with a hardwood floor tool to prevent scratches.
- **How long does the battery last?** On a full charge, the vacuum operates for up to 60 minutes in standard mode.

Safety Information

- **Operating Precautions:**
 - Avoid vacuuming large, sharp objects that may damage internal components.
 - Do not submerge the vacuum in water.
- **Storage:**
 - Store indoors in a dry place.

Environmental Impact & Sustainability

The TurboVac 3000 is manufactured using recyclable materials and designed for energy efficiency, minimizing its carbon footprint and supporting sustainability efforts.
